

Promethium

PLANT HVAC Air Purifier

KEY FEATURES

- Patent-pending photocatalytic nanotechnology 80x more effective than market standard
- Removes VOCs and other harmful gases like NO_x
- Zero ozone generated
- High-intensity UV-C with shatterproof lamps
- Optional particle filter arrangements (HEPA, activated carbon, MERV)
- Building Management System (BMS) integration for energy savings
- Simple HVAC install and maintenance
- Automatic lamp failure detection

UNIT SPECIFICATIONS

Power Requirements	300 W, 120V/220V, 50Hz/60Hz
Net Weight	50 lbs
Control Panel Features	On/Off switch, Adjustable fan speed, lamp life, maintenance clock
Housing	Aluminum
Dimensions	24" x 24" x 24"
Maximum CFM	3,000 ft ³ /min
Electrical Certifications	UL Listed Parts
Warranty	5 Year Limited
